Add Your Vision To These Views!

The views are already assured, all that's required is the vision to make the most of them! This elevated, enticing vacant site creates a great opportunity to dream, to design and to deliver a brand new home that fits your lifestyle exactly the way you would wish.

As a spectacular added attraction, outlooks over the Riverside landscape, central Launceston, the Tamar River and beyond to the eastern hills will inspire ideas for a residence that will be a fantastic family home.

Easy access from a wide street frontage and the opportunity to provide a level, user friendly approach to the home will complement the construction phase while the sunny aspect means your spaces can be bright all day long.
